

Introduction to the new ABS Seed Inventory and Processing Apps

“making life easier using apps”

Topics

- Introduction
- Overview apps
- Stocktaking app
- Inventory Management app
- Sampling app
- Short demo

ABS Seed Modules

 Off-line App

 Online App

 In development

ABS Seed apps

ABS manual data entry

Available online apps

General

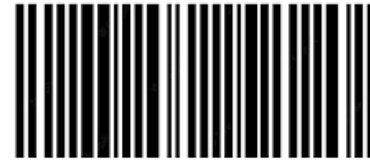

- Internet connection required in the warehouse
- All apps are real time
- Preferably on Android device

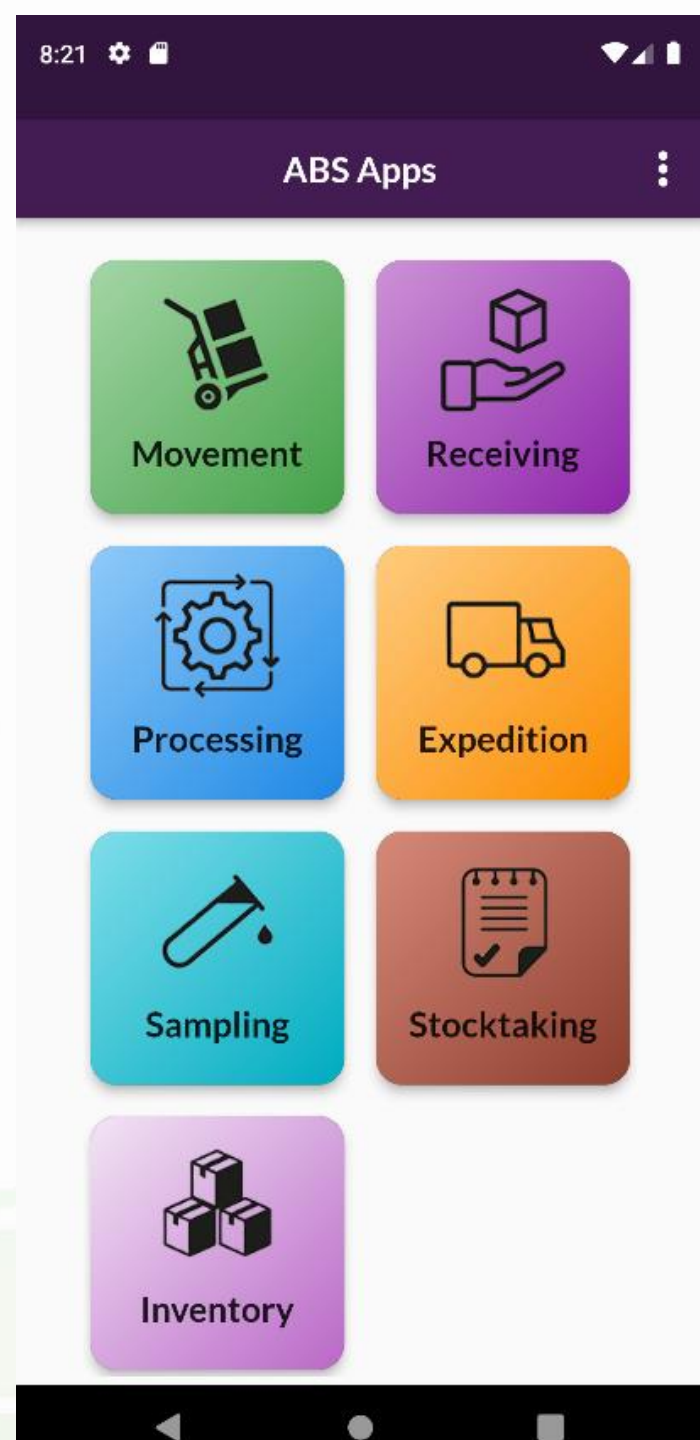

ABS Apps

- Scan barcodes
- Actions
- Enter data
- Print documents
- View specific information

Benefits

- Less errors
- Each action is executed directly
- Easy to use
- Higher efficiency

Work center

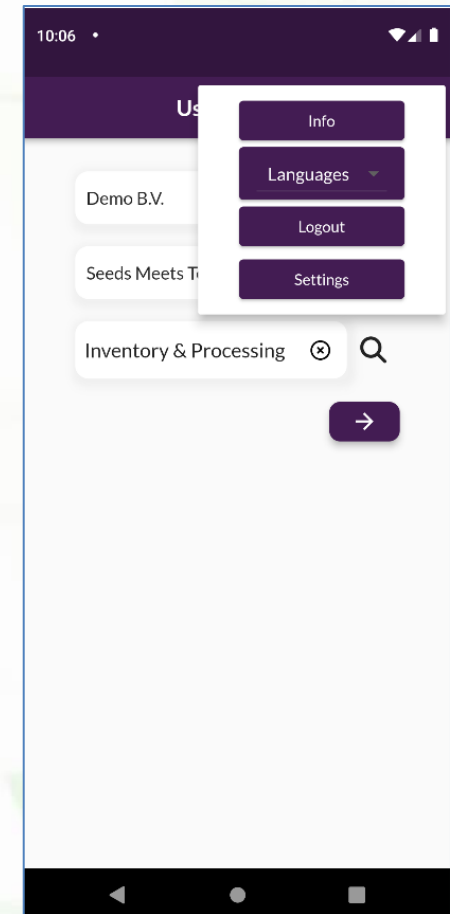

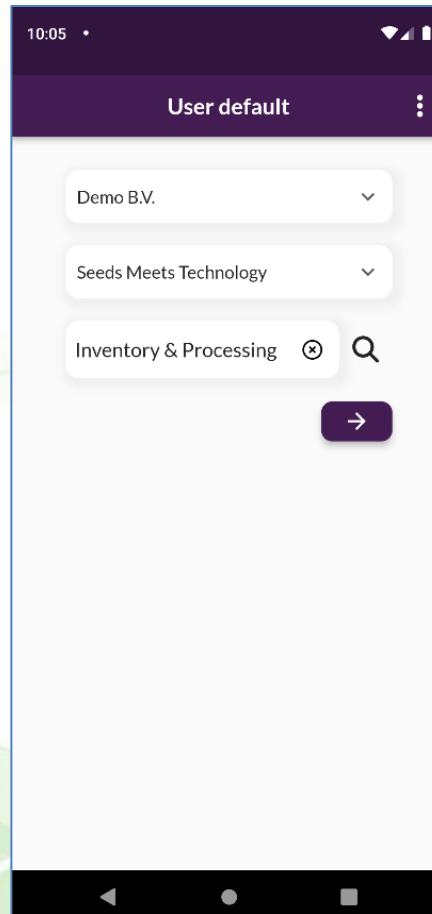

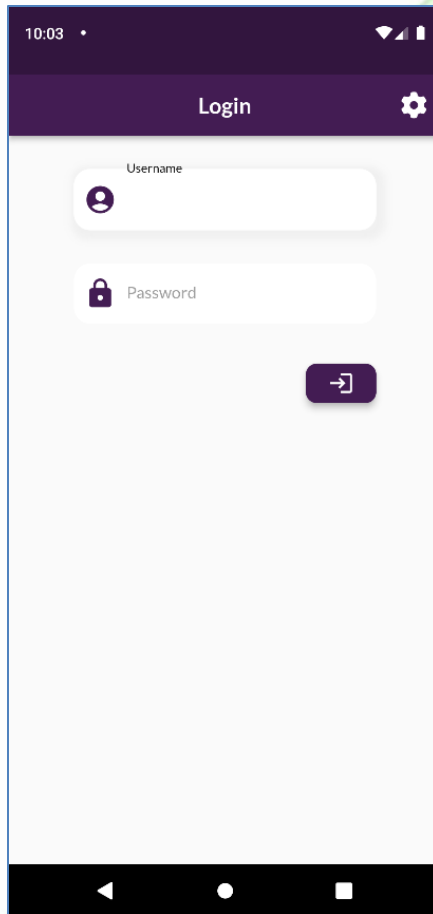

Work centers have to be configured in ABS Seed

Scales and printers can be connected to the work centers

Log-in/user settings

- User is attached to one or more work centers / plants
- Translations possible

Inventory Management app

The image displays several screenshots of the ABS Seed Inventory Management app. The main screen shows a search for a batch label (3049549) and location (CMAA3014), with details for EZYPEAZY, Lot PU6621, Fust 2, Packaging CLN FUST REG, Number 1, and Gross weight 50.560 K. A 'Reset' button is visible. Overlaid screens include: 'Change packaging' (allows changing packaging to CLN FUST REG), 'Split weight' (allows splitting weight with a 'Keep remaining in current packaging' checkbox), and 'Inventory difference' (shows a difference of 0 for the current number and gross weight). A bottom navigation bar contains buttons for 'Difference', 'Change packaging', and 'Split'.
